WORK HISTORY

MonstarLab Pte. Ltd. PH ROHQ

Java Developer II
Ortigas, Philippines
Jul 2016 – Oct 2018

Technologies: HTML, CSS
JavaScript (Angular, React, ElectronJs, Node.js)
Ionic
Java, Python
SQL, NoSQL, Elasticsearch

Done process automation for a multi-national company.

- Gathered requirements and analyzed the end-to-end process of a client's workflow.
- Presented possible solutions to clients.
- Created technical designs based on client's requirements.
- Designed, developed and deployed desktop and web applications:
 - A text-based searching application which is distributed to 3 different divisions and reduced an 8-hour manual effort to 1 to 3 minutes.
 - A data validator for 12 Latin America countries.
 - Generic tools that reduced at least 80% of processing time.
 - Internal tools for the team:
 - An application to distribute and track the team's products.
 - A feedback monitoring application
- Deployed and configured an open-source project management tool.

Developed a mobile enrollment system for a local dance school.

- Successfully translated UI design to front-end code.

Safeway Philtech Inc.

Programmer/Analyst
Taguig, Philippines
Aug 2013 – Apr 2016

Technologies: Java, UNIX, SQL

Application support for pharmacy and retail web applications.

- Responsible for change activities handled by the team.
- Primary member handling escalations for the team which includes direct coordination between onshore IT groups, vendors, or business users and Manila management.
- SME for the majority of retail web applications.
